SENIOR PSYCHIATRISTS

Senior Psychiatrists, Inc., founded in 2012, is an outgrowth of the American Psychiatric Association (APA) "Lifers." Prior to 2012, the "Lifers" were managed by the APA Foundation. Today, the Senior Psychiatrists, Inc. is an "Allied Organization" to APA and has representation in the APA Assembly through the ACROSS program.

Membership in the Senior Psychiatrists, Inc. is open to any member of the American Psychiatric Association who is a Life Member, Life Fellow, or Life Distinguished Fellow. There are potentially approximately 8,000 members of APA who have Life status, and this represents about 20% of the APA membership.

The focus of the organization is to provide educational opportunities through for younger psychiatrists through mentoring and the Lessons Learned program series. In addition, Senior Psychiatrists recognize exemplary psychiatrists for their contributions to the profession.
